

will be held on Tuesday, September 19, 1995, at 9 a.m. in SR-332.

AUTHORITY FOR COMMITTEES TO MEET

COMMITTEE ON ENERGY AND NATURAL RESOURCES

Mr. DOLE. Mr. President, I ask unanimous consent that the Committee on Energy and Natural Resources be granted permission to meet during the session of the Senate on Friday, September 15, 1995, for purposes of conducting a full committee hearing which is scheduled to begin at 9 a.m. The purpose of this hearing is to review S. 1144, a bill to reform and enhance the management of the National Park Service, S. 309, a bill to reform the concession policies of the National Park Service, and S. 964, a bill to amend the Land and Water Conservation Fund Act of 1965 with respect to fees for admission into units of the National Park System.

The PRESIDING OFFICER. Without objection, it is so ordered.

SUBCOMMITTEE ON TERRORISM, TECHNOLOGY, AND GOVERNMENT INFORMATION

Mr. DOLE. Mr. President, I ask unanimous consent that the Subcommittee on Terrorism, Technology, and Government Information of the Committee on the Judiciary, be authorized to hold a hearing during the session of the Senate on September 15, 1995, at 10 a.m. to consider "The Ruby Ridge Incident."

The PRESIDING OFFICER. Without objection, it is so ordered.

ADDITIONAL STATEMENTS

THE 40TH ANNIVERSARY OF ALBERT EINSTEIN COLLEGE OF MEDICINE

• Mr. D'AMATO. Mr. President, I rise today to pay tribute to the Albert Einstein College of Medicine of Yeshiva University. In October of this year they will be celebrating their 40th anniversary. The Albert Einstein College of Medicine was established in 1955 and has become one of the Nation's leading centers for medical research and education.

From an original class size of 56 students to a student body today of over 1,000 students this institution has produced a long line of outstanding graduates. Admissions to the program has always been extremely competitive and as recently as 1994, 9,000 candidates applied for 176 spots. A full-time faculty of over 1,000 teaches, delivers health care, and conducts studies in every major medical speciality and area of biomedical research. Particular areas of excellence in research for which the Albert Einstein College of Medicine is widely renown include Alzheimer's Disease, neuroscience, cancer, heart disease, diabetes, liver disease, AIDS, immunology and molecular genetics.

Congratulations to the Albert Einstein College of Medicine of Yeshiva University on their 40th anniversary. •

TRIBUTE TO MR. LARRY MURRAY ON HIS RETIREMENT AS EXECUTIVE DIRECTOR OF THE AREA AGENCY ON AGING OF WESTERN MICHIGAN

• Mr. LEVIN. Mr. President, I rise today to pay tribute to Lawrence L. Murray, Jr. In so doing, I join with the members of his community who are honoring Larry Murray on September 21, 1995, during a reception commemorating his 21 years of service and his retirement as executive director of the Area Agency on Aging of Western Michigan.

Larry is a native of Pittsburgh, PA, and a proud graduate of Duquesne University. A member of the World War II generation, to whom our Nation owes so much, Larry served in the U.S. Army Air Corps from 1942 to 1946.

Following his discharge from the service, Larry pursued a career in business and sales. In the early 1960's his work brought Larry and his family to Grand Rapids. A decade later Larry ended the first stage of his professional life when he retired as vice president of U.S. Gypsum, Inc.

With prophetic vision focusing on the challenges of a growing senior population, Larry prepared the documentation for designation which created Region VIII, the Area Agency on Aging of Western Michigan and was appointed the agency's first executive director.

Over the years Larry has led region VIII through many changes and challenges, always ensuring a continuous flow of services for older persons. He was responsible for making it the first computerized area agency on aging, and successfully obtained numerous State and Federal grants which have allowed for its expansion and success. Additionally Larry spearheaded the efforts to erect a new building for the agency that includes a state-of-the-art kitchen for its Meals on Wheels Program.

In 1986 in recognition of his outstanding leadership and many years of dedicated service, Larry was given the award for the Distinguished Area Agency Director of the United States of America.

Also active in his church and community, Larry has been a volunteer or member of many boards and organizations over the years among them: the Ancient Order of Hibernians; the Knights of Columbus; the St. Vincent DePaul Society; the Michigan Society of Gerontology, and a host of others.

Serving his country, church, and community throughout his entire life, Larry Murray has been an example to others embodying the highest ideals of his faith and his country. Mr. President I ask you along with all of my colleagues in the Senate to join with me in honoring this outstanding citizen. His legacy of unselfish service is something all should strive to emulate. •

WORLD POPULATION AWARENESS WEEK

• Mr. CAMPBELL. Mr. President, in August, Gov. Roy Romer of Colorado proclaimed October 22 to 29 "World Population Awareness Week" for the State of Colorado. I would like to express my support for this proclamation, and for population awareness activities.

I support noncoercive international family planning programs as much as possible, given budget constraints. Other countries need our support to control population growth and raise standards of living. Family planning programs help control population growth in overcrowded nations, reduce infant and maternal mortality rates, and decrease the rates of starvation and poverty. These developments in turn help lower pressures on inadequate, severely stressed health services in many countries.

By promoting long-term, sustainable economic and human growth, I believe family planning programs serve U.S. interests in environmental protection, resource conservation, global economic growth, immigration, and international stability.

World Population Awareness Week will help promote public awareness of the causes and costs of overpopulation, and effective policies to reduce population growth voluntarily and rationally.

Mr. President, I ask that Governor Romer's proclamation be printed in the RECORD.

The proclamation follows:

HONORARY PROCLAMATION

Whereas, the world's population has reached 5.7 billion and is growing at a reported rate of 100 million each year; and

Whereas, rapid population growth can overtake the capacity of human societies to provide food, housing, education, employment and basic health services and may undermine economic development as well as social, cultural and political stability; and

Whereas, population growth can place strains on the environment and our natural resources; and

Whereas, many groups will recognize October 22-29, 1995, as World Population Week to increase public awareness of what many view as a need to find a balance between population development and the natural environment;

Now, therefore, I, Roy Romer, Governor of Colorado, proclaim October 22-29, 1995, as World Population Awareness Week in the State of Colorado. •

TRIBUTE TO DEA SPECIAL AGENT ROBERT A. AIU, 1995 NATIONAL LAW ENFORCEMENT OFFICER OF THE YEAR

• Mr. AKAKA. Mr. President, it is an honor and privilege for me to rise in the well of the Senate today in recognition of Special Agent Robert A. Aiu of the Drug Enforcement Administration [DEA], Honolulu, who has been named the 1995 National Law Enforcement Officer of the Year. This is a singular honor which is awarded to but one out of the thousands of law enforcement officers of Federal enforcement agencies,
